Meet the latest innovation in clothing care

Sanitise and refresh your clothes everyday

We understand the need to keep your family's clothes clean and hygienic round the clock, even when washing is not an option. That's why we created the Samsung AirDresser, a breath of fresh air in clothing care. It uses innovative technologies to steam, dust off, deodorize, gently dry and sterilise* clothes, and also smooth out wrinkles.

*Eliminates: 1) Up to 99.9% of 4 viruses (Adenovirus, Influenza, Corona Virus and Herpesvirus) based on testing by the Korea Univ. lab. 2) Up to 99% of house mites, based on testing by Intertek / BAF certification using a Sterilization course for 112 minutes. 3) Up to 99% of Odour causing gases (Iso-Valeric acid: sweat, 4-Ethenyl pyridine: tobacco, Valeraldehyde: food eg. from grilled meat, and Tetrachloroethylene: dry cleaning) based on testing by Intertek using a Normal course. 4) Up to 99% of harmful substances (Perchloroethylene) based on testing by Intertek using a Normal course. All products, images, features shown are for representational purpose only, actual may vary.

AirDresser specifications

Capacity	3 Jackets + 3 Pairs of Pants
Features	Jet Steam, Jet Air + Air Hanger, HeatPump Drying, Deodorizing Filter
Accessories	Shelf, Water Tray, Air Hanger, Weight Kit, Regular Hanger Kit, Cleaning Cloth, User Manual, Anti-Tip Strap, Screw (for Anti-Tip Strap), Screw Anchor (for Anti-Tip Strap), Rear Levelling Feet

JetSteam Refresh

Deodorizing Filter

Gentle Drying

Wrinkle Care

How exactly does it work?

Step 1. JetSteam

Eliminates* up to 99.9% of bacteria, viruses and other particles using high temperatures.

Step 2. JetAir

Effectively removes dust and odours from both the inside and the outside of clothes.

Step 3. HeatPump Drying

Dries delicate items gently and quickly at low, constant temperatures.

Step 4. Deodorizing Filter

Removes up to 99% of bad odours caused by various factors like sweat, tobacco and food†

BAF : EU/CIS/LATAM

AAFA : USA

Korea Uni. : EU/CIS

Intertek : Global

*Eliminates: 1) Up to 99.9% of 3 viruses (Adenovirus, Influenza and Herpesvirus) based on testing by the Korea Univ. lab. 2) Up to 99% of house mites, based on testing by Intertek / BAF certification using a Sterilization course for 112 minutes. 3) Up to 99% of Odour causing gases (Iso-Valeric acid: sweat, 4-Ethenyl pyridine: tobacco, Valeraldehyde: food eg. from grilled meat, and Tetrachloroethylene: dry cleaning) based on testing by Intertek using a Normal course. 4) Up to 99% of Tetrachloroethylene: dry cleaning based on testing by Intertek using a Normal course. Individual results may vary depending on the actual usage situation. †Based on testing by Intertek using a Normal course: Iso-Valeric acid: sweat, 4-Ethenyl pyridine: tobacco, Valeraldehyde: food eg. from grilled meat, and Tetrachloroethylene: dry cleaning. Testing for Iso-Valeric acid and 4-Ethenyl pyridine based on KS K0891 Standard. Individual results may vary depending on the actual usage situation. All products, images, features shown are for representational purpose only, actual may vary.

1 Eliminates up to 99.9% of bacteria, viruses and allergens

JetSteam: Sanitises and refreshes your clothes using the powerful JetAir system to infuse high temperature steam deep in to the fabric. Eliminates* up to 99.9% of harmful particles burrowed in clothes such as viruses, bacteria, house mites, malodours and tetrachloroethylene used by most dry cleaners^.

2 Removes up to 99% odours and keeps clothes fragrant

Deodorizing Filter: Captures and eradicates malodours and odour-causing gases embedded in clothes, and prevents build-up leading to unpleasant smells. Eliminates up to 99% of odours caused by factors such as perspiration, tobacco, dry cleaning compounds and fire smoke.

*Eliminates: 1) Up to 99.9% of 3 viruses (Adenovirus, Influenza and Herpesvirus) based on testing by the Korea Univ. lab. using a Sanitize course 2) Up to 99.9% of 2 types of bacteria (E.coli and S.aureus) using a Sanitize course. 3) Up to 99% of Odour causing gases (Iso-Valeric acid: sweat, 4-Ethenyl pyridine: tobacco, Valeraldehyde: food eg. from grilled meat, and Tetrachloroethylene: dry cleaning) based on testing by Intertek using a Normal course. 4) Up to 99% of Tetrachloroethylene: dry cleaning based on testing by Intertek using a Normal course. Individual results may vary depending on the actual usage situation.
^Kills: 1) more than up to 99% of house dust mites, based on testing by Intertek / BAF certification using a Sterilization Sanitize course. All products, images, features shown are for representational purpose only, actual may vary.

3 Lessens wrinkles and reduces ironing time

Wrinkle Care: Smoothens and neatens clothes, eliminating the hassle of ironing. Uses a combination of steam and air to relax and ease out creases in fabrics, so that clothes are ready to wear instantly. Removes up to 100% of wrinkles from woollens and up to 80% of wrinkles from rayon*.

4 Optimises upkeep by reducing extra humidity

Dehumidification: Takes care of clothes by keeping the room dry without the use of an extra dehumidifier. Draws in air from the room when the door is open, extracts moisture from it and expels dry air. Ensures that clothes are protected from damage from moisture and are kept in the ideal condition.

*Based on independent testing by Intertek, using a normal course according to KS K 0891 and ISO 9867. Wool fabric wrinkle recovery efficiency was up to 100% and rayon fabric wrinkle recovery efficiency was up to 80% after using the AirDresser. All products, images, features shown are for representational purpose only, actual may vary.

5 Efficient and silent dust removal

Jet Air + Air Hanger: Blows silent, powerful jets of air in opposite directions to loosen and remove engrained dust, with less vibrations and minimal noise*

6 Gentle drying at a low temperature

HeatPump Drying: Reduces damage and shrinkage of clothes using an upper JetAir and lower HeatPump. Improves internal circulation for even distribution of air, and dries items at cooler temperatures.

*Based on internal testing it has a Noise Rating of 42.8 dB in normal mode and is 37.8 dB in Silent mode. This is the max LEQ sound level from the front, lateral and rear sides. Testing was conducted in an anechoic room at a distance of 1.0m from the product. The results may vary depending on the actual usage situation. All products, images, features shown are for representational purpose only, actual may vary.

7 AI-powered laundry care and maintenance

SmartThings™: The SmartThings™ app* enhances performance through user data**. 'Care Recipe' suggests the best cleaning cycles***, 'My Closet' customises courses, 'Special Course' gives access to various cycles and 'Home Care' enables troubleshooting.

8 Easy and hygienic maintenance

Self Clean: Keeps the inside fresh and clean to optimise performance. Sanitises, deodorizes, dehumidifies and sends cleaning reminders after 40 cycles.

*Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required.**Stores user data, preferences and usage patterns to suggest the most useful options.***The user will be solely responsible for any consequence(s) that may result, including but not limited to any damage or harm caused by incorrect information provided by the user. All products, images, features shown are for representational purpose only, actual may vary.

When is it necessary to use the AirDresser?

Circumstantial requirements

When you return from the outdoors, it is crucial to sterilise your clothes as they will have been exposed to various germs and odours.

Seasonal requirements

Spring

Pollen and dust that cling to clothes must continually be removed, as they cause allergies and discomfort.

Monsoon

The moisture retained by clothes leads to damage, creating a pressing need for dehumidification.

Autumn

Jackets, cardigans and shawls are worn frequently and require constant refreshing.

Winter

Heavy duty winter clothing like coats and mufflers absorb more pollutants, making continual sanitisation a necessity.

Who needs the Airdresser?

Children

Parents

Young adults

Working members

Seniors
