# 1 Elevate your entertainment with breathtaking visuals

## OLED powered by Quantum Dot Technology

See deep blacks, clean whites and lively colours thanks to cutting-edge self-illuminating pixels driven by Quantum Dot.

## Pantone Validated

Authentic color display validated by PANTONE®. It's the world's first TV that received validation from PANTONE, a trusted symbol of color fidelity. Now you can enjoy a more accurate and comfortable viewing experience.

## Quantum HDR OLED+^

Enjoy a majestic viewing experience with every pixel responding to create brighter brights and darker darks, delivering powerful brightness and expansive contrast.

## Neural Quantum processor 4K

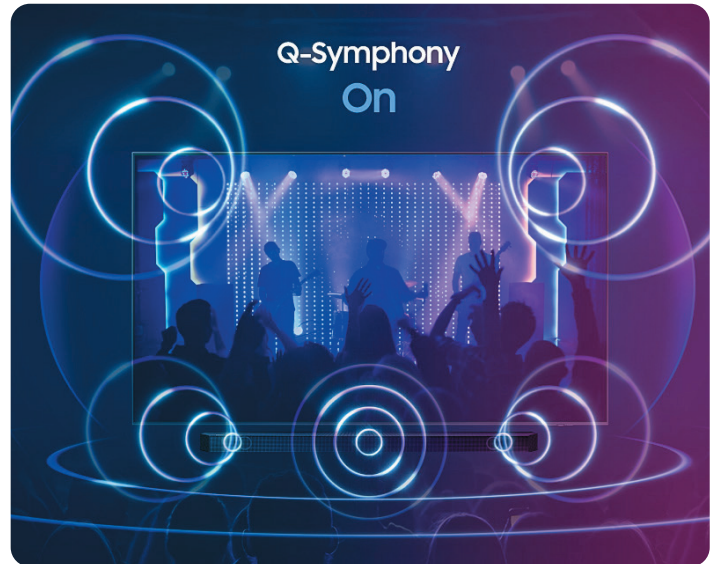

Witness unrivaled brightness and superior 4K picture quality generated by 20 different neural networks. Don't just watch, feel the power of 4K.

## 2 Sound like no other

### Dolby Atmos®

Samsung's top channel speakers and Dolby Atmos deliver an incredible audio experience that will immerse you into the action with multi-dimensional sound.

### Q-Symphony

Surround yourself with sound from TV and soundbar orchestrated in harmony. Q-Symphony uniquely allows TV and soundbar speakers to operate simultaneously for better surround effect without muting TV speakers.

## 3 Level up your home décor

### Infinity One Design

Bring home this brilliantly elegant design with an ultra-slim profile to give your home the ultimate contemporary look.

### Solar Remote

With an eco-conscious solar panel on its back that you can use to charge it, you don't need to use disposable batteries.
